Designed Roofing

To Whom It May Concern,

Debra Glass of CRYSTAL CLEAR Telecom Savings has been managing our account for the last six months and I am quite pleased with the expertise she has brought to us. Debra not only saves us money, she also saves us a great deal of time. Her attention to the details of our plans and features, our usage and resulting expenses provides me peace of mind knowing she is verifying all charges and presenting new options when they become available.

It was great Debra was also able to recover some of the monies we previously paid to our service provider and we often see credits she requests on our current monthly invoices.

I would confidently recommend engaging Debra Glass to reduce and control your business telecom expenses.

Sincerely,

Michael Valenti
