To Whom It May Concern,

We had about 20 different cellular devices on different plans with variable rates and the charges seemed high as well as difficult to understand and control, but I didn't have the time, expertise or energy to spend sorting out the accounts.

When Debra offered her services, I found her extensive knowledge about cell phones, plans and controlling costs outstanding. She's a very sharp negotiator and she's even more detail oriented than I. Plus, she will walk both ways uphill for you to get the job done.

Debra not only saved us a great deal of time and money, but was also able to secure new devices for our entire team with very little expense. Without a doubt, I would recommend her to anyone with mobile communications.

Sincerely,

Dean Wilson, CPA, CMA
