To Whom It May Concern,

We recently changed our wireless service provider and our new bills were more costly than the proposal and the charges difficult to decipher. I was spending too much time resolving my new provider's charges while also dissatisfied with the new devices. I enlisted the support of Debra and she was quick to detect the last bill issued by the previous provider had incorrect charges and the new provider was billing incorrectly. Had I had Debra on board when we did the switch, I know this would have been much smoother and without all the time consuming follow up I found myself doing.

Debra worked diligently with both providers to put my accounts in order as well as recovering monies I paid in error. She is thorough, detail orientated and provided me a complete understanding of my expense. She certainly relieved my frustration, saved me money and allowed me to get back to my business.

I recommend Debra Glass and CRYSTAL CLEAR Telecom Savings without hesitation.

Sincerely,

Richard Corbett
